

Lecture 42 — Capstone presentations / gallery walk

Wed Dec 9

Last updated: August 18, 2026.

The class outline for this day will be posted before class.

Related reading and the course-wide list of daily objectives: [Lectures](#).

Learning objectives

By the end of class, students should be able to:

1. Explain the problem and why SVD or another linear-algebra tool was appropriate.
2. Present quantitative evidence about accuracy and cost.
3. Defend a choice of rank or representation.
4. Evaluate classmates' methods constructively.
5. Communicate the practical value and limitations of the result.
