Midterm 2

Friday, November 13

Last updated: October 8, 2026.

In class. Date is on the schedule. Covers Lectures 18–29 (Unit II; skip Veterans Day) and skills from Quizzes 5–9.

Prepare

1. Study guide — learning outcomes, how to build a definitions/formulas list, rework lecture and quiz examples.
2. Practice packet — definitions, easy computations, harder problems (answers at the end).

Learning objectives

By the end of the exam, students should be able to:

1. Analyze matrices as transformations and models.
2. Solve and interpret systems.
3. Use matrix products, powers, rank, inverses, and determinants appropriately.
4. Interpret computational results in context.
