

Lecture 06 — Linear functions in applications

Fri Sep 4

Last updated: August 18, 2026.

The class outline for this day will be posted before class.

Related reading and the course-wide list of daily objectives: [Lectures](#).

Learning objectives

By the end of class, students should be able to:

1. Model a score, cost, prediction, or aggregate quantity.
2. Interpret model coefficients and intercepts.
3. Compare outputs from competing models.
4. State a reasonable limitation or assumption of a linear model.
