Last updated: August 18, 2026.

The class outline for this day will be posted before class.

Related reading and the course-wide list of daily objectives: [Lectures](#).

Learning objectives

By the end of class, students should be able to:

1. Perform elementary row operations.
2. Reduce a small augmented matrix to echelon form.
3. Solve a small system using back substitution.
4. Explain why row operations preserve the solution set.
