Last updated: August 18, 2026.

The class outline for this day will be posted before class.

Related reading and the course-wide list of daily objectives: [Lectures](#).

Learning objectives

By the end of class, students should be able to:

1. Determine whether a product is defined and give its dimensions.
2. Compute a small matrix product.
3. Interpret ABx as a sequence of transformations.
4. Explain why matrix multiplication is generally not commutative.
